COP 24 - Transport Events with GIZ Involvement

**COP24 Transport day**

*Thursday, 6 Dec*

9:00 – 18:00

**Miejski Dom Kultury**

Offsite Event – No accreditation needed

Under the theme Urban Mobility Solutions to Tackle Climate Change, Transport Day 2018 will highlight the strong role of cities in reducing greenhouse gas emissions and improving air quality by implementing measures in the transport sector. Importantly, the event will address how national governments can support the potential of cities for successful sustainable urban mobility action.

http://www.ppmc-transport.org/transportday2018/

Co-organized by CIVITAS, City of Katowice, SloCat, Paris Process on Mobility and Climate

**Transport Day - Break Out Session 1B: Financing Transformation & Low Carbon Mobility**

*Thursday, 6 Dec*

11:30 – 12:45

**Miejski Dom Kultury**

This session covers current status and trends of climate-oriented finance in the urban transport sector (e.g. MDBs, development agencies, climate finance instruments).

This includes the historic/projected growth of emerging finance strategies (e.g. climate bonds), especially in context of rapid growth in urban transport demand. There are vast financing gaps in global transport and a need to increase financing to achieve transformation for transport to meet Paris Agreement targets.

Organized by IsDB and GIZ

**Transport Day - Break Out Session 2A: Climate Action in Urban Transport**

*Thursday, 6 Dec*

14:45 – 16:00

**Miejski Dom Kultury**

In this event, TUMI’s scaling up of transformative urban mobility in its 2nd year will be discussed. Secondly, the MobiliseYourCity Partnership will introduce a GHG-emission quantification & targeting tool for urban transport.

Organized by TUMI and MobiliseYourCity Partnership

**Global Climate Action Event - Transport**

*Friday, 7 Dec*

15:00 – 18:00

**Lubelskie, COP Venue**

While highlighting the scale and range of climate action in the transport sector, this event identifies political, technical, social, and economic barriers, which are preventing the scaling up of climate action and examines how UNFCCC Parties can help address these barriers at the national level.

Organized by UNFCCC / Transport Group
Support for Increased Ambition on Low-Carbon Transport and Development

The session will focus on the challenges facing the private sector in financing renewable energy in developing countries especially in IsDB member countries and take a look at transport in NDC, presented by GIZ.

Organised by IsDB

EUROCLIMA+ in action:
Promoting sustainable urban mobility together with local actors in Latin America

Latin America is among the world’s most urbanised regions, with 80% of the population living in cities and the share set to reach to 86% by 2050. Urban transport has been a sector showing a continued rise in greenhouse gas emissions, but with good potential for decreasing them.

Organized by European Commission – DEVCO G2 and European Commission

MYC Event
From COP23 to COP24: A year of action for MobiliseYourCity Partnership. This event includes a presentation of the latest news about the partnership. Additionally, the latest MYC publication about National Urban Mobility Policies and Investment Programs (NUMP) will be presented.

Organized by MobiliseYourCity Partnership

Mobility transition in our cities: Prioritising people – decarbonising transport

Brought together by the Transformative Urban Mobility Initiative (TUMI), this side event will present examples from emerging and developing countries to showcase and discuss creative ways to bring about a mobility transition, including the use of intelligent urban planning, innovative vehicles, new tariff schemes and the power of cooperation across city and national borders.

Organized by TUMI

A matter of urgency: How to get transportation on a fast track to decarbonization?

Agora Verkehrswende will present an update of the 2017 published G20 decarbonisation study that was conducted jointly with GIZ. The study contains a detailed breakdown for each G20 country, presenting both the impact of its transport sector and the climate goals and practical measures it has adopted to address this impact.

Agora Verkehrswende - Towards Decarbonising Transport

Organized by BMU
GHG baselines and monitoring methodologies and tools to support MRV at national level

Official Side Event

Wednesday, 12 Dec
13:15 – 14:45

Room 5

The aim of this side event is to share with interested stakeholders information on the development of a compendium of tools and best practices that developing countries may find useful to analyze the GHG impact of their mitigation options. GIZ will present on the Transport Volume of the compendium and experiences with quantifying emissions in the transport sector.

Passenger and Freight Transport Volume

Organized by UNFCCC

Decarbonisation of EU Transport - long term strategy

EU Side Event

Thursday, 13 Dec
10:30 – 12:00

Room Brussels, EU Pavilion

Wuppertal Institute will present a guideline document on National Urban Mobility Programmes as part of MobiliseYourCity.

Organized by Transport&Environment, Öko-Institut, UN Habitat and Wuppertal Institute

CHANGING TRANSPORT
Facilitating climate actions in mobility

To change transport towards a sustainable pathway we work with an international team of 100 experts with a current project portfolio of 110 million Euros in around 25 projects in 30 countries. We promote sustainable transport worldwide to harness societal benefits, such as access to jobs, clean air and economic development, to improve quality of life and to fight climate change. We offer training and consulting services and connect transport colleagues from around the world. Our expertise covers choosing the right measures to mitigate carbon emissions, facilitating access to finance them and monitoring the results.
